

TS464 calibration paper

#### Instructions for use:

- 1) Print this document on a Letter size sheet. Use heavy, white paper and the best possible resolution and print quality to ensure optimal contrast. Verify that the page is printed in the right size; the cutout size should be 218 x 185 mm.
- 2) Cut out the sheet along the dotted lines.
- 3) For calibration of your TravelScan 464, insert the sheet with the printed side face down and the edge indicated by the arrows first into the scanner.
- 4) Follow the procedure as indicated in the scanner software.
